a2X for Amazon

QuickBooks or Sage in tidy summaries that match the Amazon settlement payouts to the bank account.

their numbers add up. A2X posts Amazon transactions directly into Xero,

Customer pain points that A2X solves

It's not easy to accurately account for Amazon sales and fees. Merchants are dealing with:

- · Different currencies and taxes.
- Hundreds of fee types.
- Many regions and marketplaces.
- Settlements that span month-end.
- · Cost of goods sold (COGS) timing differences.
- High transaction volumes that can swamp Xero, QuickBooks or Sage.

This can make reconciling Amazon sales and fees a nightmare. A2X automates this process and makes accounting for Amazon a breeze.

How A2X works

- 1. Connect A2X to your Amazon seller account to Xero, QuickBooks or Sage in minutes.
- 2. A2X loads your Amazon transactions, then maps them against your chart of accounts, and allocates them to the correct financial periods.
- 3. A2X then posts tidy, summarized journals into Xero, QuickBooks or Sage, that always match the batched net cash received from Amazon.

Additional Features

- A2X matches COGS to your Amazon sales to make it easy to track gross margin.
- A2X does an FBA (Fulfillment By Amazon) inventory stocktake each month and calculates the value of FBA stock for the balance sheet.
- A2X supports every Amazon marketplace and the various currencies.
- A2X has an automated posting option, so you won't have to worry about reconciling your Amazon sales and fees each month, instead you'll receive an email to let you know it has been done.

Key benefits of using A2X

- 1. Accurate books You can have confidence in your financials, knowing your numbers balance to the cash in your bank account.
- 2. Save time A2X automates the Amazon seller accounting process and takes care of the details. A2X saves hours of time and gives you one less thing to worry about.
- 3. Accounting your way A2X is customizable so you can choose from A2X standard settings, or organize your numbers down to the level of detail you need.
